

DAAD grants 12 Scholarships for South East Asian Students Sending application before 31st May, 2009

DAAD (German Academic Exchange Service) grants 12 students from South East Asian Countries to study International Engineering Master Programs at **TGGS** (The Sirindhorn International Thai-German Graduate School of Engineering)

TGGS is currently seeking for 12 candidates from South East Asian Countries for DAAD Scholarship to study in the following engineering programs:

1. Automotive Engineering
2. Communication Engineering
3. Chemical and Process Engineering
4. Electrical Power Engineering
5. Material and Metallurgical Engineering
6. Mechanical Engineering (Simulation and Design)
7. Production Engineering
8. Software Systems Engineering

The scholarship include

- Tuition fee at TGGS
- Travelling costs from home country to Thailand and back (only one round trip)
- Living cost in Bangkok, Thailand
- Depending on performance of the first year, accepted candidates have chance to get the grant for travelling to Germany to do the internship and research for 1 year.

Application Requirements

- Applicants should have the nationalities of the following (but not limited to) countries: Lao, Vietnam, Indonesia, Malaysia, Cambodia and Myanmar.
- However, applicants from other Asian countries such as China, India, Nepal, etc. will also be taken into account.
- Over average performance in Bachelor Degree.
- Good communicative skills in English.
- Applications can be sent with a short biography and academic record by email.
